

DERRICK FELIX KIPRONO

📍 Nairobi Kenya 📞 0707167888 ✉ lamarronnie7@gmail.com

CAREER OBJECTIVE

I am a passionate and detail-oriented Software Developer with a strong foundation in applied computing, data management, and analytics. Skilled in Frappe/ERPNext, Python, JavaScript, and website development, I enjoy building scalable, user-friendly, and data-driven digital solutions.

With hands-on experience in Ubuntu/Linux environments, I bring both technical expertise and problem-solving ability to every project. I am eager to contribute my skills and innovative thinking to a dynamic team that values technology as a driver of growth and impact.

SKILLS

- ERPNext Development & Customization
- Python Programming
- HTML5 & CSS3
- Data Analysis & Visualization
- Ubuntu/Linux Administration
- Frappe Framework
- JavaScript (ES6+)
- API Development & Integration
- MySQL & Database Management
- Website Development & Deployment

PROFESSIONAL EXPERIENCE

IT SUPPORT SPECIALIST

2026 to CURRENT

TakaTaka Solutions | Kiambu, Ehothia

- Provided comprehensive technical support and system administration, including managing the ERPNext platform, resolving user issues via a ticketing system, and handling high volume support requests. Additionally, configured hardware, software and workstations for employee onboarding.

SOFTWARE DEVELOPER

2025 to 01/2026

Upeosoft | Nairobi, Nairobi Province, Kenya

- Improved ERPNext system efficiency by troubleshooting and resolving module customization issues, ensuring smooth business operations.
- Saved time and resources by identifying and fixing bugs in ERPNext, Python scripts, and web applications before deployment.
- Developed and customized ERPNext applications and built responsive websites, enhancing usability and business process automation.
- Streamlined development workflows by leveraging Agile practices (Scrum & Kanban), delivering projects on time and with higher client satisfaction.
- Enhanced data-driven decision-making by applying data management and analytics skills to generate insights from business processes.
- Configured and managed Ubuntu/Linux environments, enabling secure, reliable, and efficient deployment of applications.
